

Let's Talk bout Me

So nice to see you, how you been? It's been a year or two
I've heard you're doing famously at whatever it is you do
me? I'm just fantastic, so nice of you to ask
we got this conversation back on track at last...

You must have heard I got that job in the advertising game
you won't believe how much I earn, but I'm still just the same
Sure I go to San Francisco and the Cote d'Azur on biz
and all my friends are famous or they know someone who is

Let's talk about me. I'm much more interesting than you
Let's talk about me. My life is fabulous it's true
Let's talk about me. It's something that you all should do
That's enough about me, let's talk about you
What do you think about me?

So nice to see you, how you been? It's been a year or two
I've heard you're doing swimmingly at whatever it is you do
me I'm just fantastic, well the Prozac helps a bit
and it's only when I stop I realise I'm talking...

Shall we talk about me?
